Developing Concepts into Commercial Successes

Hands-on technical leader with 20+ years building and scaling digital products from zero. Scaled a company to \$25M in annual revenue through a NASDAQ acquisition, and now architect production AI agent systems for regulated markets. I bridge product vision and execution — fluent in code, architecture, and AI/LLM integration — while driving strategy, team building, and growth.

Core Competencies

AI Product Development & Agent Orchestration • LLM Integration & Build-vs-Buy Strategy • Technical Leadership & Strategy • Full-Stack Engineering (Next.js / React / Node.js) • Cloud Infrastructure (Vercel, AWS, GCS) • iOS / watchOS Development • E-Commerce Architecture (Shopify, Builder.io) • Team Building & Mentorship

Recent Experience

Founder / CEO

July 2024 - Present

- Founded a full-stack development studio building AI-powered products and high-performance web systems.
- 2025 launches: a native iOS app with a companion watchOS app; two headless Shopify e-commerce stores on Builder.io; three financial and consulting brand and site launches.
- Designed and built custom Shopify apps — an AI-powered listing-generation tool for collectibles and antiques, and "Teleagent," a sales companion for third-party affiliate sales.

AGRIFY™ SVP of Information Technology (via acquisition)

February 2022 - June 2024

- Directed software, IT, and web divisions across five merged subsidiaries.
- Architected a unified IoT + web ecosystem, migrating legacy systems into a modern cloud stack.
- Led infrastructure consolidation and software productization during post-merger integration.

LAB SOCIETY
by AGRIFY

Partner / CTO

November 2016 - January 2022

- Scaled company from \$500K → \$25M annual revenue, culminating in acquisition by Agrify (NASDAQ: AGFY).
- Built and led the development of ERP, e-commerce, and automation systems, enabling market expansion.
- Managed cross-disciplinary teams spanning software, hardware, and digital marketing.

HENNEPEN'S Co-Founder / CTO

July 2018 - May 2024

- Co-founded a true "seed-to-sale" CBD product line
- Created product branding, packaging, marketing initiatives, IT, and company standard operating procedures
- Pioneered a unique, grassroots wellness-provider sales network platform and helped cultivate a partnership with ARC, showcasing a commitment to inclusivity

Advisory Boards

- **Formul8:** AI Orchestrated Agent Systems — regulated product markets
- **AutoCSR:** AI Customer Service Platform — EDI-driven windshield repair industry

Education

B.S. in Technology @ Bowling Green State University
